Billerica Residents:

On the first night of the Fall 2013 Town Meeting, the electronic voting system we have been using experienced a problem which caused us to shut it down and revert to the traditional voting method; by way of a voice vote. Therefore, there are no digital results to display.

While this was unfortunate, the issues have since been identified and resolved. Nevertheless, individual member votes were not tabulated, but the overall results remain on file in the Town Clerk's Office as they always have been.

Should you wish to know those results, please contact the Town Clerk's Office at 978:671.0924.

Thank you,

Chris Bartlett  
Director of Technology
