Billerica Residents:

On the first night of the Fall 2014 Town Meeting, the laptop which runs the electronic voting system we have been using experienced several problems which caused us to have to calculate a litany of individual voice votes in addition to the electronic ones. As a result, there are no appreciable votes to display.

While this was unfortunate, the issues have since been identified and resolved. Nevertheless, individual member votes were not recorded, but the overall results remain on file in the Town Clerk's Office as they always have been.

Should you wish to know those overall results, please contact the Town Clerk's Office at 978.671.0924.

Thank you,

Chris Bartlett
Director of Technology
